Korea Advanced Institute of Science and Technology (KAIST) **E-mail:** wo7516@kaist.ac.kr
291, Daehak-ro, Daejeon, Republic of Korea **Website:** https://itsjaeyong.github.io/

Education

Korea Advanced Institute of Science and Technology (KAIST), Daejeon, South Korea

B.S. candidate in Physics, *Summa Cum Laude*(expected) Feb. 2023(expected)

- Thesis title: *New Rydberg Atom Structure for Quantum Computing in any non-planar graph: Quantum Tree Wire*
- Mandatory military service: Korean Augmentation To the United States Army(KATUSA) Nov. 2018 – Jun. 2020

Research Experience

Opto-Quantumics Lab (OQT), KAIST Mar. 2022 - present

PI: Prof. Donggyu Kim

- Design a methodology for fast Quantum Nondemolition(QND) measurement of neutral atom qubit with its phase information.
- Fast solution of combinatorial optimization problems in Hubbard model using both classical and quantum devices.
- Construction of experiment setup: Double-pass AOM and Laser Intensity Lock system.

Center for Supersolid and Quantum Matter Research (CSQR), KAIST Jan. 2022 - Feb. 2022

PI: Prof. Eunseong Kim

- Study on building superconductor based 3D cavity to construct circuit QED system.
- More effective quantum nondemolition(QND) measurement construction.

Quantum Computing Lab (QCL), KAIST Sep. 2020 - Dec. 2021

PI: Prof. Jaewook Ahn

- Study on quantum computing Maximum Independent Set problem, or Max-Cut problem using 3D arranged Rydberg atom array.
- Three projects:
  - Experimental realization of Quantum Approximate Optimization Algorithm(QAOA) on solving MIS and Max-Cut problem
  - Quantum Tree Wire implementation on Rydberg atom systems for maximum independent set of an arbitrary non-planar graph
  - Designing an arbitrary unitary quantum gate using Rydberg blockade and intended avoided crossing
- Undergraduate Research Project(URP) Grand Prix, 1 Best Oral Presentation Award, and 4 Conference Presentations

Electronic structure Research Laboratory (ER Lab), KAIST Mar. 2018 - Jun. 2018

PI: Prof. Yeongkwan Kim

- Learn and assist YBCO synthesis and characterization through extremely cold temperature.

Research Interests

My research interests include:

- Realization of quantum algorithm and fault-tolerant quantum computing.
- Quantum Optics
- Quantum machine learning

Honors and Awards (Selected)

- **2022 Global Leadership Awards (creative), KAIST** Feb. 2022

  awarded for showing an exceptional performance among whole undergraduate/graduate students in creativity area.
- **Leadership Mileage Diamond level** Jan. 2022
- **Best Oral Presentation award, Korean Physical Society** Oct. 2021

  awarded for the presentation "Rydberg quantum tree wires for vertex-splitting in Quantum computing high-degree graphs" at 2021 KPS Fall Meeting.
- **Grand Prix, KAIST Undergraduate Research Project(URP)** Aug. 2021

  awarded for taking first place in Winter/Spring URP presentation, "New Rydberg Atom Structure for Quantum Computing in any non-planar-graph: Quantum Tree Wire".
- **Merit-based Scholarship by Department of Physics, KAIST** Spring/Fall of 2021
- **Dean's list, College of Natural Sciences, KAIST** Spring/Fall of 2021
- **Science Scholarship by the President of Republic of Korea** 2017 – 2022

  awarded for representing Korean university students majored in science or engineering.
- **National Scholarship, KAIST** 2017 – 2022

  awarded with full support for university admission, tuition, and student support fees.
- **Best Presentation award by the President of UNIST** Jan. 2016

  awarded for showing excellent work in Science High School R&E Conference

Publications

Minhyuk Kim, Kangheun Kim, **Jaeyong Hwang**, Eun-Gook Moon, and Jaewook Ahn, "Rydberg Quantum Wires for Maximum Independent Set Problems", Nature Physics **18**, 7 (2022).

Hongseok Oh, Youngbin Tchoe, Heehun Kim, Jiyoung Yun, Mingi Park, Seongjun Kim, Young-soo Lim, Hanjoon Kim, Woosung Jang, **Jaeyong Hwang**, Yeda Song, Juntae Koh, and Gyu-chul Yi, "Large-scale, single-oriented ZnO nanostructure on h-BN films for flexible inorganic UV sensors", J. Appl. Phys. **130**, 223105 (2021).

Conference Presentations

(Best Oral Presentation Award) **Jaeyong Hwang**, Minhyuk Kim, Kangheun Kim, Eun-Gook Moon, and Jaewook Ahn. (Oct., 2021). *Rydberg quantum tree wires for vertex-splitting in Quantum computing high-degree graphs*, 2021 KPS Fall Meeting.

Jaeyong Hwang, Minhyuk Kim, Kangheun Kim, and Jaewook Ahn. (Jun., 2021). *New Rydberg Atom Structure for Quantum Computing in any non-planar graph: Quantum Tree Wire*, poster session presented at Atomic and Molecular Physics Devision Workshop(AMP2021), Korean Physical Society, Yeosu, Republic of Korea.

Minhyuk Kim, Kangheun Kim, **Jaeyong Hwang**, and Jaewook Ahn. (Jun., 2021). *Atomic Quantum Wires in Rydberg Ising graphs*, poster session presented at Atomic and Molecular Physics Devision Workshop(AMP2021), Korean Physical Society, Yeosu, Republic of Korea.

Kangheun Kim, Minhyuk Kim, **Jaeyong Hwang**, and Jaewook Ahn. (Apr. 2021*). Quantum computing of maximal independent set problem for non-planar graphs*, oral presentation in 2021 KPS Spring Meeting.

Patent

Minhyuk Kim, Kangheun Kim, **Jaeyong Hwang**, and Jaewook Ahn, (2022). *Method for solving Maximum Independent Set problem using Quantum Computing*, Patent Application (PCT/KR2022/000814).

Teaching Experience

- **Undergraduate Mentor, Freshman Tutoring Program (General Physics)** Mar. 2022 - present
- **Private tutor for high school students** 2017 - present

  High school Math / Physics, Math / Physics Olympiad, General Physics, Linear Algebra, etc.

Skills / Qualifications

Languages: **Korean**(native), **English**(fluent)

Computer: **MATLAB**, **Python**, C/C++, LTspice, Qiskit, Geogebra, Illustrator

Completed Qubit by Qubit's 2020-2021 Introduction to Quantum Computing Course sponsored by IBM Quantum. (October 2020 - May 2021).

Completed Quantum Information Science Summer School held by Quantum Information Research Support Center. (26 July 2021 - 5 August 2021).

Participated in GEM Trailblazer Summer Program as an exchange student to Nanyang Technological University(NTU), Singapore. (2-27 July 2018).
